Europe Day Link-Up

On Thursday May 5 we are hoping to link up with Werne and Werne's four other twinning partners via the Internet to celebrate Europe Day. This will be done through St Bede's School.

School Links

The long-established educational exchanges between St Christopholus School in Werne and the Lytham St Annes School of Technology and Performing Arts suffered a hiccup recently when a planned visit by German students in May had to be can-

celled. Teachers were unable to find enough host families for 15 German students. It is hoped the visit to Germany later in the year will go ahead.

Primary Connection

The International Club Werne (ICW) has asked if there would be a chance of establishing links with one of our primary schools. We are currently exploring this with Clifton Primary School.

Membership Drive

The committee has been looking at ways to promote twinning and at-

tract new members. One suggestion was giving presentations to various community groups and clubs. We have our first booking in November this year to a Probus meeting and we are talking to the Lytham St Annes Arts Society about having an evening with its members.

If you know of any group or club who would be interested in learning about twinning and the LSA Twinning Association, please contact a member of the committee.
